

BUSINESS GOOD ALL THE WEEK

Strong Feeling of Confidence
Prevails in All the
Branches.

MOST TRADES EXTENDING
RETURNING TRAVELERS RE-
PORT CONDITIONS GOOD.

This has been a good week in all lines of business though some inactivity is looked for in this season. The striking feature is strong feeling of confidence which prevails in all branches. Both wholesale and retail dealers report that conditions are much better than during the period last year. Collections continue good and money is easy. Travelers returning from the country districts all report that business in their lines is most promising. Salt Lake as a distributing center seems an assured fact. They also say that conditions in the smaller towns were never so satisfactory.

Wholesale grocers report business exceptionally good. There has been a considerable extension in this line and many of the more distant points not formerly touched by Salt Lake firms now furnish a considerable business.

Real Estate Conditions.

With the exception of one or two sales there have been no large transactions in real estate during the week. All the dealers say that they are well satisfied with business conditions. Many small properties have changed hands largely for homes and there has been also some speculative buying and changes for investment. Altogether the real estate business was never in a more healthy condition. Some of the sales recorded have been to outside purchasers but the strong demand for small home properties is strongly indicative of the steady growth of the city. There are several large transactions pending which will doubtless be closed in the early part of the week.

The wholesale dry goods trade is reported in equally good condition with other lines. Cash receipts have been heavier than is usual at this time of the year while there is little change in the credits. Dealers in this line do not seem to be reaching out for the outside business opened up by the 'Frisco disaster but apparently are content to keep their old lines. The dry goods men were almost the only dealers who would give little or nothing in the way of discounts to the visitors expected on the Manufacturers and Merchants' excursion. Heavy consignments have been received from the east during the week, largely of delayed goods.

Retail dry goods stores have been receiving many new lines of summer wear and have been doing a very large business in the lighter goods.

Going After Trade.

Among the wholesalers who are going after inter-mountain trade are hardware men. They are getting a very large percentage and are doing nearly double last year's business in some lines. The firms here are now handling most of the trade in the neighboring states and are firmly holding their ground against eastern competition.

The high prices in the leather trades continue, but there has been no diminution in the amount of business on that account. On the contrary there is a strong demand particularly among the shoe men, though eastern manufacturers have been away behind on filling orders.

Lumber conditions remain unchanged though there is some complaint from dealers that orders have not been filled. There is no scarcity in the yards, however, and prices remain the same.

Wholesale fruit and produce dealers say that there has been a great demand, almost in some cases exceeding the supply. Oranges have been very scarce and lemons are scarce and high. California fruit has not been so plentiful as usual and there has been no difficulty in disposing of all shipments. Idaho potatoes continue to come into the market in small lots but there is not a great demand for them since they were replaced by the Utah product.

Hay and grain prices have remained stationary, though there will be a decided change. There is some anxiety lest the lucerne crop should be shorter than was expected, it having been reported that it was a failure in some part of the state. The new hay will be in this week.

Utah Stocks.

Nearly everything has been stiffer in the local stock market particularly in sugars. Reports of excellent crop conditions have caused a general advance. Quotations are:

VALUABLE REAL ESTATE SOLD

Third South Street Unimproved
Lot Brings \$800 a
Front Foot.

There has been a great deal of activity in property on South Third street of late owing to the fact that the new union depot of the Rio Grande Western and the Western Pacific will soon be built on this street. Much property has changed hands in the locality of the new depot all of it at a good figure. The record was reached yesterday, however, when James E. Patne purchased from J. E. Bamberger a vacant lot adjoining the Greenwald Furniture company's premises on the west for \$800 a front foot. This

property on the south side of Third South street between Main and West Temple has long been considered a very desirable business location and has been held at a high price for some time. In view of the building of the new depot the price which it brought is not considered excessive. The lot is 25 by 165 feet and the total price paid was \$20,000. The sale was negotiated by W. J. Halloran.

The purchaser, J. E. Patne stated yesterday that he would immediately commence the erection of a three story modern business block on the property, to cost in the neighborhood of \$15,000.

A number of other transactions are pending for property in this locality, some of which will probably be closed the first of the week.

MACCABEES, ATTENTION!

Macabees and ladies of the hives, take notice.—You are earnestly requested to be at Odd Fellows' hall Sunday, June 17, with flowers for memorial day at 9:30 a. m.

NEW BANK FOR BOUNTIFUL

It Is Incorporated With a Capital
Stock of \$20,000—Is
State Concern.

The State Bank of Bountiful filed articles of incorporation with the secretary of state yesterday. The institution is capitalized at \$20,000, the par value of each share being \$100. The officers are: President, James A. Eldredge; vice-president, N. T. Porter; cashier, Charles R. Mabey. The other directors are Joseph Nelson, I. E. Willey and Richard Stringham. The Swan Canal company, formed to own and operate the Swan canal in Rich county, also filed its articles with the secretary of state yesterday. The capital stock is \$2,000, divided into shares of the par value of \$5 each. The officers are: President, Charles C. Stock; vice-president, Magnus Erickson; secretary and treasurer, Philip R. Moore. These, with George A. Lutz, compose the board of directors.

Sunday the time.
Saltair the place.
Temperature of water 80 deg.

All butchers and grocers closed Wednesday. Barbecue day; open Tuesday evening until 8:30.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result; and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

ROUND TRIP, - - - 25c

YOU HAVE ALL HEARD

the wonderful virtues of the Asbestos Sad Iron extolled in the leading magazines of the country. There is no exaggeration about what you have read. The Asbestos Sad Iron is constructed with an asbestos lined hood or covering, which slips over the hot iron, and serves as a handle, this retains the heat in the iron longer than the old style, thus enabling you to do twice as much ironing as formerly. Once used you will wonder how you ever did without one.
